

Printing on Paper

Supplies can be purchased online at Blick, Jerry's Artorama or any other large art supply provider (also most of this stuff is on Amazon) or in person at Artist Craftsman and Supply in Westbrook.

-Arnhem 1618 (my favorite) I like the Arnhem 1618 paper pads because I'm lazy about cutting paper! [Arnhem 1618 Paper Pad by Speedball - White, 5" x 7", 20 Sheets | BLICK Art Materials](#)

But you can buy big sheets (22x30") and cut down to size, or work large!

You can also use Strathmore mixed media or printmaking paper if you want a more budget friendly option. [Strathmore 400 Series Mixed Media Pad - 9" x 12", 15 Sheets | BLICK Art Materials](#)

-Inks, Speedball Water Soluble, you could start simple with primary colors! I'll have some extra colors from my ink stash you can use as well. [Speedball Water-Soluble Block Printing Inks and Sets | BLICK Art Materials](#)

-Plate(s) Speedball Speedy Carve Blocks (whatever size you want to work with!) I'd suggest starting small to begin with. Or buy a larger block and cut up as a budget friendly option. The pink stuff works the best! [Speedball Speedy Carve Blocks | BLICK Art Materials](#)

-Carving set: Speedball Linoleum Cutter [Speedball Linoleum Cutter Sets and Replacement Blades | BLICK Art Materials](#)

-Spatula for ink mixing (optional, instructor will have some to borrow), You can use one you might already have for paint, or ideally get a metal one at a hardware store.

-Roller (optional, instructor will have some to borrow) [Speedball Soft Rubber Brayer - 1-1/2" | BLICK Art Materials](#)

-Babywipes for easy clean up (optional)

Printing on Fabric

-Fabric: Linen, silk or any thin materials work best!

-Ink: Fabric Block Printing Ink (I like these best) [Speedball Fabric Block Printing Ink & Kits | Jerry's Artarama](#) or you could also purchase a kit: [Amazon.com: Speedball Premium Block Printing Ink Set - 6 Colors for Fabric and Paper - Water Soluble Oil Based Ink - 1.25 oz Each - Non Toxic Art Supplies](#)

-Plates: Speedball Speedy Carve Blocks (whatever size you want to work with!) I'd suggest starting small to begin with. Or buy a larger block and cut up. [Speedball Speedy Carve Blocks | BLICK Art Materials](#)
